

# How to Measure

## Built in Wardrobes

Wardrobe Packages are available to suit any size opening up to 2400mm wide. All Packages are a standard height of 1850mm and depth of 455mm.

Measure the depth of your opening to ensure it is a **minimum of 460mm without custom doors**. Measure width and select the Package that suits.

# How to Measure

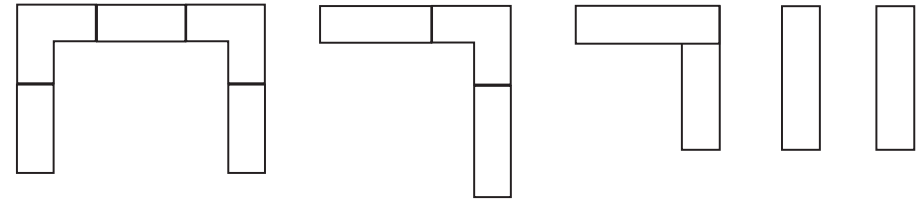

## Walk in Robes

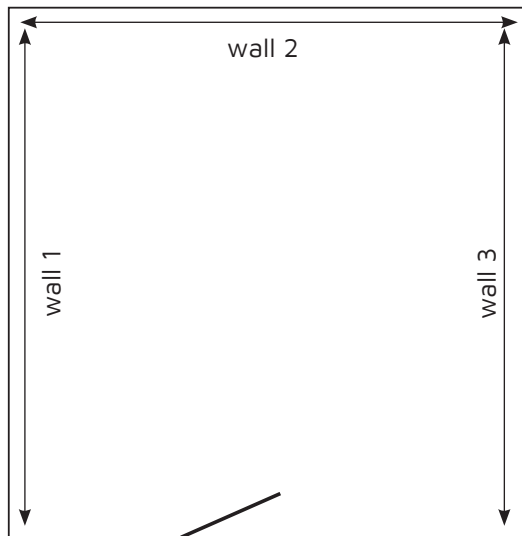

Wardrobe Packages are available to suit any size opening up to 2400mm wide. All Packages are a standard height of 1850mm and depth of 455mm.

By combining packages with corner units or add on hat shelves, you can build custom fitting units for most common walk in robe configurations.

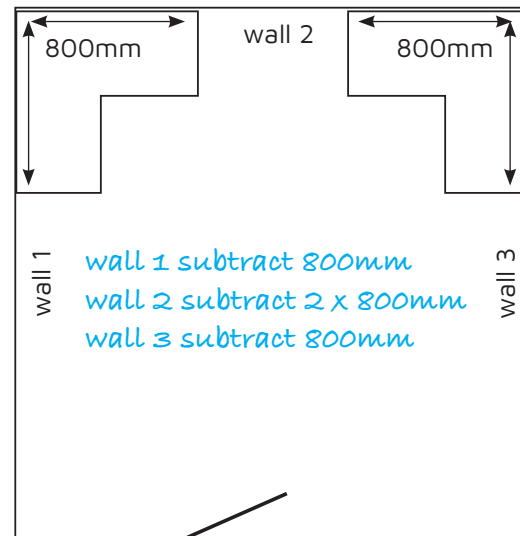

Start by choosing your layout

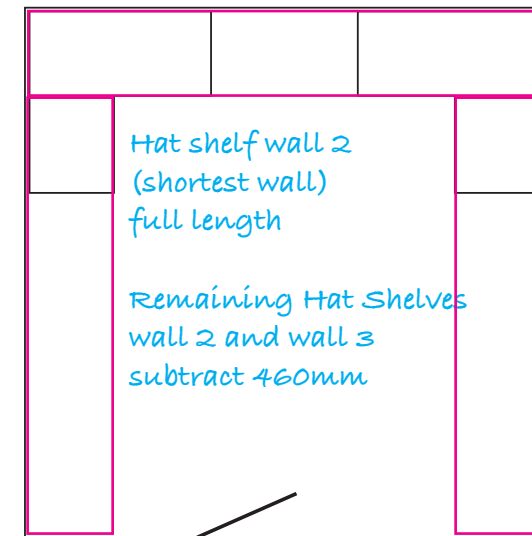

**1.** Measure all the walls you would like to fit robes to.

**2.** Corner units are 800x800mm, add these first to your plan and deduct their measurement from the overall wall lengths this will help you when selecting packages.

**3.** Once you have these measurements you can select packages to suit. Hat shelves sit on top of corner units so you will need to select packages long enough to fit.
